## New electricity price plan offers more customer choice

Beginning May 1, 2023, utilities that are ready to do so can offer the new Ultra-Low Overnight (ULO) price plan. ULO has four price periods, one of which is a very low-priced overnight period.

### Time-of-Use and ULO

The price for both of these plans depends on when you use electricity. On each of these plans, you can help manage your electricity costs by shifting your usage to lower price periods when possible.

### Tiered

With Tiered pricing, you can use a threshold amount of electricity at a lower price. Once you exceed that limit, a higher price applies.

**Considering a switch?**  
Use your own electricity usage information and our calculator to estimate your bill amount under each price plan.
