

Renfrew Hydro is conducting an
Electrical Safety Awareness Survey
by phone beginning January 2022.

You may receive a call from ADVANIS on our behalf.

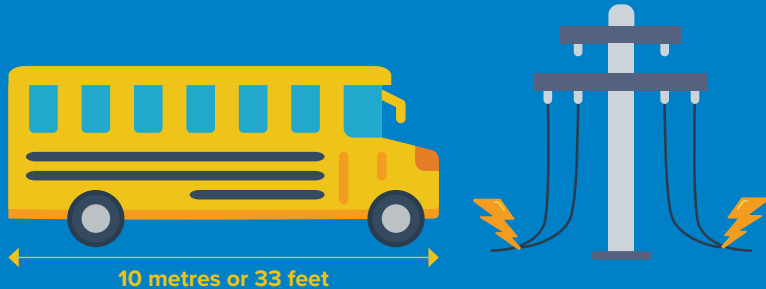

To learn more about the survey please visit
our website at renfrewhydro.com

WE WANT
YOUR FEEDBACK

HOW ARE WE
DOING?

Downed Powerlines can be deadly.

If a powerline comes down in a storm, stay 10 metres (33 feet, about the length of a school bus) or more away.

**EVEN IF IT
DOESN'T LOOK LIVE,
A DOWNED WIRE CAN
STILL CARRY POWER
THAT CAN
JUMP DISTANCES.**
